\*The guarantee covers the coated aluminium against peeling, powdering and blistering as well as chalking, fading and loss of sheen, please ask for full details of the guarantee. Please notify us if the products are to be installed in hazardous environmental conditions.

For technical reasons associated with colour reproduction, the colours shown give only an indication of shade. No guarantee can be given that they will exactly match the powder product.

The special paint finish of the Sensation range is difficult to reproduce in the printing process, the textured finish takes on a "shimmer" effect in certain light and is unique compared to the standard range of colours available in the market.

# KL Colours

Our standard range of colours are all available at competitive rates

KL 001 (Matt)

KL 002 (Matt)
